DePaul University

September 22, 2010

I am pleased to announce the creation of a new **Networks and Telecommunications Advisory Board (NTAB)** within the School of Computing (SoC) at DePaul University. This Board will consist of industry leaders who will meet with SoC faculty at regular intervals (typically twice per year) to discuss industry trends and practices, and to guide DePaul in providing the most current and comprehensive education in networks and telecommunications.

Board members will also be kept informed about many other DePaul SoC networks and telecommunications workshops, lectures, research seminars, and student activities. They will have access to our students for internships and recruitment. They may provide resources or classroom speakers to our instructors and will be featured on our web site and in promotional materials.

Our first NTAB meeting is scheduled for Friday, October 22, 2010 from 1:00 – 2:30 pm in room 436a of the CDM building at 243 S. Wabash, Chicago.

Sincerely,

Gregory B. Brewster
