

NSF GRFP Program

& Tips for Crafting a Winning Application

When: Friday, Aug. 4th, 4pm-5pm

Where: DePaul University, CDM 723, Jarvis College of Computing & Digital Media, 243 S. Wabash Ave. , Chicago, IL, 60604

Join us for an engaging seminar on the NSF Graduate Fellowships Program (GRFP) hosted by the MedIX REU Program! This event aims to provide important details about the program and provide valuable insight into the application process from a former REU student and recipient of this esteemed fellowship.

What is GRFP?

- Prestigious 5 year fellowship
- 3 years of financial support with annual \$37,000 stipend
- Aims to broadened participation in science & engineering

Guest Speaker: Jorie Budzikowski

Jorie graduated from Vanderbilt University in 2020 and is currently a fourth year PhD candidate in Biomedical Engineering at Northwestern University working for Shirley Ryan AbilityLab. Mentored by Dr. Wendy Murray of the Applied Research in Musculoskeletal Imaging and Simulation (ARMS) Laboratory and funded by the National Science Foundation as a graduate research fellow, she is pursuing rehabilitation research with novel imaging techniques for upper limb muscle architecture quantification in orthopedic injuries.
